

SERIES **EB84 EB86 EB88**

Compact electromagnetic door release unit

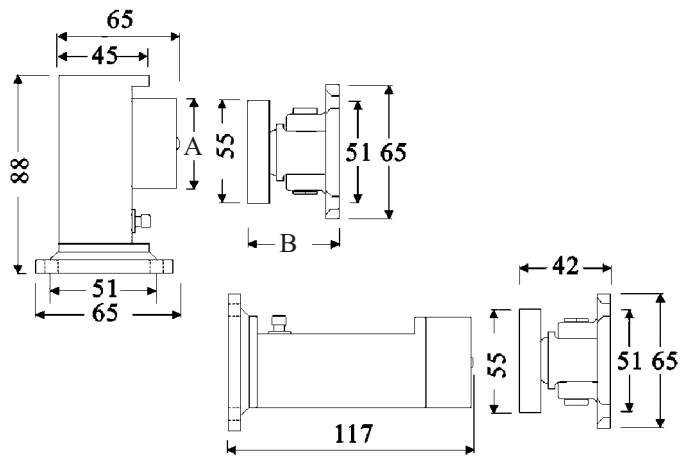

- Wall mounting
- Holding strength, 50 and 60 kg
- Versions available with release button

Electromagnetic door release unit designed to hold open fire or smoke stop doors, for convenience and then release automatically them in response to an emergency. The simple and compact design takes up little room and offers an interesting quality/price ratio. An integrated spring extractor allows to overcome any residual magnetism, ensuring a fast and reliable door release.

GENERAL SPECIFICATIONS

Magnet base material	Thermoplastic black
Core material	Steel
Keeper plate material	Thermoplastic support, black, steel plate
Working mode	Release with no power supply Uninterrupted work
Packaging	1 pcs. / package

ORDER CODES

Model No.	Holding strength	Rated Voltage	Rated current	Core A diam.	Height B	Release button	Package Weight	Order Code	Notes
EB84	60 kg	12/24V DC	180/90 mA	49mm	42mm	Yes	0,85 kg		
EB86	60 kg	12/24V DC	180/90 mA	49mm	42mm	Yes	0,85 kg		
EB88	50 kg	24V DC	100 mA	49mm		No	0,95 kg
